

(PRUNEDALE)
1657 / SW

IMPORTANT - PLEASE NOTE

- 1) *This map may not show all potentially active faults, either within the special studies zones or outside their boundaries.*
- 2) Faults shown are the basis for establishing the boundaries of the special studies zones.
- 3) The identification of these potentially active faults and the location of such fault traces are based on the best available data. Traces have been drawn as accurately as possible at this map scale, however, the quality of data used is highly varied. The faults shown have not been field checked during this map compilation.
- 4) Fault information on this map is not sufficient to serve as a substitute for information developed by the special studies that may be required under Chapter 7.5, Division 2, Section 2623 of the California Public Resources Code.

Seaward projection of zone boundary.
